- School staff

% of School Enrollment Immunized

In the last week, range = <10% to >40%

What made school clinics work?

- ★ Vaccine availability
- ★ Federal money to buy supplies, equipment & to hire staff
- ★ Agencies willing & able to work with PH
- ★ School systems willing to put in much effort to organize and promote clinics
- ★ PLANNING, assessment, adjustments
- ★ Public Health staff pulled from other programs & dedicated to the cause

What made school clinics work? (cont.)

- ★ Team structure
- ★ Expert immunization staff
- ★ Much attention to consents
