11-12 years	Tdap (Tetanus, Diphtheria, acellular Pertussis), Meningococcal, HPV (Human Papillomavirus Vaccine)
6 months-18 years	Influenza (yearly)

### Adult Immunizations

- Public Health provides some, but not all, adult immunizations. For guidelines see: [www.publichealthmdc.com/documents/AdultVaccines.pdf](http://www.publichealthmdc.com/documents/AdultVaccines.pdf)
- Tdap (tetanus, diphtheria, pertussis) vaccine is available free to adults. Pertussis disease can cause a severe cough that lasts for weeks. It is especially dangerous for infants. People who are around infants should get a Tdap to help protect babies from this sometimes deadly disease.
- Free HPV vaccine now available to qualifying men and women 19-26 yrs. Call 266-4821 for an appointment
  - Income less than \$43,320 for an individual (more for families).
  - No health insurance that covers vaccines.
  - Live in Dane County. You do not have to be a citizen.
