

Manual Utensil Washing:

Change your water frequently. Cambie el agua con frecuencia.

| <u>Sanitizer</u> | <u>Concentration</u> |
|--------------------|----------------------|
| Chlorine | 50 - 100 ppm |
| Quaternary Ammonia | 200 ppm |
| Iodine | 12.5 - 25 ppm |

Note: Concentrations below the approved chemical levels are not effective and concentrations above these levels can be toxic. To ensure the correct concentration, always read the directions on the label and use the proper test strips to check the concentration.
