

MIXING A CHLORINE SANITIZING SOLUTION:

Graphic Courtesy of Daydots

Wiping cloth container

100 ppm
1-teaspoon chlorine
in
1-gallon water

Sink compartment

100 ppm
1-tablespoon chlorine
in
3-gallons water

Tips: 50 ppm chlorine is the minimum required amount in sanitizing solutions.
Be sure to verify the volume of your own buckets, spray bottles, or sink compartments.
