

How to Deactivate your Airbnb Listing

BECOME LICENSED OR DEACTIVATE YOUR LISTING

You must be licensed if you are advertising short-term rooms for rent to visitors. If you are no longer providing short-term rentals, please remove your listing by deactivating the listing. Simply removing all future reservation dates is not adequate, as your listing will still appear online. We need you to deactivate the listing. This action will not delete your reviews on Airbnb.

To permanently deactivate your Airbnb listing:

1. Go to [Your listings](#) on airbnb.com and select a listing
2. Click **Manage listing**
3. Under **Listing status**, click **Deactivate listing**
4. Follow the instructions to deactivate your listing

You won't be able to permanently deactivate your listing if you have any upcoming reservations or reservation requests. Past reviews of your listing will remain on your public profile — they cannot be removed.

If you would like to cancel your Airbnb account entirely, [learn how to cancel your account](#).
