TIME AS A PUBLIC HEALTH CONTROL (TPHC)
WISCONSIN FOOD CODE 3-501.19

TPHC allows time/temperature control for safety (TCS) foods to be held up to 4 hours at temperatures between 41°F and 135°F .
TCS foods may be kept up to 6 hours only if the initial temperature is 41°F or less when removed from temperature control.
Additionally, food held for 6 hours must be monitored to ensure the warmest portion of the food does not exceed 70°F.

1. WHAT food(s) are being held using this TPHC plan?

2. WHERE and HOW are the food(s) being held?

3. WHAT is the maximum holding time?

4. HOW is the start and discard time marked?

5. WHAT systems are in place for making sure that the plan is being followed?

- Reminders when using TPHC:**
- Leftover food MUST be discarded
 - Food in unmarked containers MUST be discarded
 - Food exceeding time specified MUST be discarded
 - Written plan must be kept onsite
 - Plan must be available to the health department upon request
 - If the plan is not being followed, it will be written as a violation
